

Economy and ecology – meet the Politicians

Forest & Bird Waitakere is organizing a meeting to find out what your local politicians think about our precious flora and fauna. **October 20th, 7.30 pm Kelston Community Centre, 135 Awaroa Road (near corner with Great North Road just above Waikumete Cemetery).**

Do you...

- love our native birds
- enjoy our National Parks...
- have concerns about the environment ...

... and don't know who to vote for?

Come to our Candidates Meeting!

Ask Phil Twyford (Labour) what his party will do for biodiversity and hear how Jackie Blue (National) will balance the economy with the environment. Find out why David Seymour (ACT) wants to dig up our mountains and if Stephen Tollestrup (Greens) agrees with that. And see if *any* of these politicians actually *know* the difference between a stoat and a ferret... This is your time to find out.

Hear what they've got to say about conservation and the environment. The fur may fly as the gloves come off, but we guarantee no one will be hurt!

Deputy Mayor Penny Hulse will try and keep the peace for the first half before the break and after the break you can ask all the questions you like to make sure you'll vote with confidence come November.

With Phil Twyford, Jackie Blue, Stephen Tollestrup, David Seymour and deputy mayor Penny Hulse as a special guest chairperson.

After a few set questions have been covered there will be a general question time followed by tea, cake and munchies.
