

## Calculate your Prescribed Investor Rate (PIR)

To be used by members, or people applying to be a member of a New Zealand registered superannuation scheme or KiwiSaver scheme

If you do not provide us with an IRD number, we will use a PIR of 33%.  
If you don't know your IRD number you can ask your employer or call the IRD on 0800 227 774.

If you don't know your Taxable Income\* you can contact the IRD on 0800 227 774 for a personal tax summary or talk to your accountant.

For more information please read the Investment Statement. More information about Portfolio Investment Entities (PIEs) and PIRs can be found at the investment section of [www.asb.co.nz](http://www.asb.co.nz)

Your PIR will be used to calculate tax payable in respect of your PIE investment with ASB.

If you elect a PIR of 19.5% or 33% and this is the correct rate for your personal circumstances then any tax paid in respect of your PIE investment will be a final tax, meaning that you will not need to file a tax return as a result of receiving such income, or need to pay any further taxes.
